
Wallpaper Protection

Water-repellent and soil-resistant protective film

Scope of application:	A solvent-free coating, thus an optimum protection for all wallpapers, wall paints and natural stones. The Geiger Wallpaper Protection is suitable for indoor use only. The product makes all wallpapers, emulsion paints, etc. washable and abrasion resistant. Wallpaper Protection dries to a matt finish. It may cause a slight restriction of the breathability.
Properties:	Gloss level: mat; not yellowing (lightfast)
Technical specifications:	Raw material base: water-miscible polymerised resins, wax emulsion Make-up ratio: undiluted Consumption: 200 ml/m ²
Processing:	The substrate must be dry, sound and free of grease. Make sure the temperature of the substrate is not below 8°C. Apply Geiger Wallpaper Protection with a lambs-wool roller, flat brush or airless unit in 2 working stages each with 100 ml. Always clean the tools thoroughly with water immediately after use.
Identification:	Please refer to the EC safety data sheet for the pertinent information.
Storage property:	Store the product in a cool, dark and dry place.
Other:	Always read the label and product information before use. It is good practice to test the compatibility at an unobtrusive point.
Container sizes:	Bottle with 250 ml Bottle with 500 ml Bottle with 1,000 ml
