

BLANC-FIX

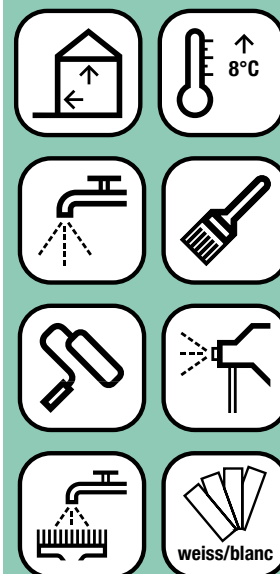

White powder KW-100

Art. 41 / 2 / 0123

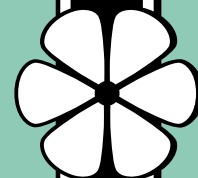

VFL
Vismara Farbladen

Properties	BLANC-FIX is a water-soluble white powder for interior wall and ceiling coatings. BLANC-FIX has an extremely high vapour diffusion capacity (breathable), has a disinfectant effect and can be easily reworked at any time. The high hiding power, the good wipe resistance and the cold water soluble preparation make BLANC-FIX an advantageous and inexpensive wall and ceiling coating.
Field of application	For whitening stables, milk rooms, cellars, etc.
Pretreatment	The substrate must be clean, dry, load-bearing and grease-free.
Processing	It is recommended to soot BLANC-FIX with water one to two hours before application and to adjust it to the desired working consistency before application. Do not use below 8 °C.
System structure	1–2 x BLANC-FIX white powder KW-100
Drying	<ul style="list-style-type: none">◆ Dry after 1–3 hours◆ Can be painted over after about 6 hours (depending on the temperature, application quantity, humidity and air circulation)
Dilution	<p>Sprayer 2 parts water + 1 part BLANC-FIX white powder KW-100</p> <p>Scooter and brush 1 part water + 1 part BLANC-FIX white powder KW-100</p>
Extensiveness	1 litre of mixed solution is sufficient for 4–6 m ² , depending on the quantity applied and the condition of the substrate.
Application	Brush, roller or spray gun. In order to achieve optimum results, it is very important to use the right tools – see KNUCHEL GUIDE on brush and roller qualities. You will find this guide both in the catalogue and on the homepage as an attachment to this product.
Cleaning	Clean tools with warm water immediately after use.
Delivery form	Packages of 25 kg sowie 1 kg.
Shelf life	BLANC-FIX can be stored for at least 18 months in the well closed original container. Store in a cool and dry place.
Viscosity	In powder form
Density	2,80 ± 0,10 g/cm ³
Solid content	100 %
Binder base	Bone glue

Farben

Knuchel

High quality - Top finish

Pigment base	Chalk powder
Gloss level	Dull matt
Colours	Natural white
Authorisation	BLANC-FIX white powder KW-100 is approved by the federal research institute for dairy farming in Liebefeld for coatings in milk collection points, cheese dairies and other milk processing plants.
Registration	CPID 106518
Classification	For information on chemical properties and hazards as well as regulations regarding transport, processing, storage, disposal, etc., please refer to the safety data sheet.
Note	<p>This leaflet is only intended as a reference and non-binding advice. The processing must be adapted to the corresponding conditions. In special cases we recommend to contact our technical service. However, all data and information on the suitability and application of the delivered products do not exempt the processor from carrying out his own tests and trials. A claim for damages for omitted, incomplete or incorrect information is excluded. This applies in particular also if other products are used in the paint build-up system.</p> <p>Furthermore, we refer to our General Terms and Conditions (GTC) on our homepage.</p>
