

EASY

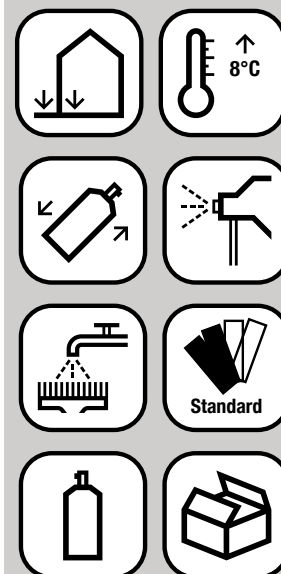

Art. 718 / 9 / 0423

Marking spray «Temporary»

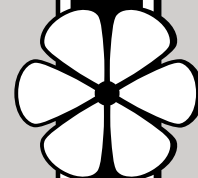

VFL
Vismara Farbladen

Properties	Environmentally friendly, water-based and quick-drying overhead hand marking spray for temporary safety marking. EASY Markings can be easily removed at any time with water and light roughing.
Field of application	EASY marking spray «Temporary» is suitable for short-life markings and lettering on asphalt, concrete, stone, earth, grass, metal and wood.
Processing	Remove the lateral tab in the lid. The lid itself remains stuck on the can. This ensures a clean spray and the colour content of the can is immediately visible at all times. Shake the can before use until the balls move audibly for about 20 seconds. Shake well even when working in between. To spray, push the spray head to the side and make sure that the can is directed downwards and against the object to be sprayed. Spray distance 15–20cm. Below 8–10 °C, prior heating to 20 °C or storage at room temperature is recommended.
Drying	◆ Firm to the touch after approx. 20 minutes (depending on the temperature, application quantity, air humidity and absorbency of the substrate)
Extensiveness	One can is sufficient for about 30–50 linear metres, depending on the line width, colour shade and floor condition.
Cleaning	With self-cleaning special valve. It is no longer necessary to reverse the can after use to clean the valve by means of gas leakage.
Delivery form	Aerosol cans of 500ml.
Shelf life	EASY can be stored for at least 12 months in the well closed original container.
Colours	No. 183 green, No. 630 blue, No. 633 white, No. 635 red, No. 636 yellow.
Registration	CPID 627720
Classification	For information on chemical properties and hazards as well as regulations regarding transport, processing, storage, disposal, etc., please refer to the safety data sheet.
Note	This leaflet is only intended as a reference and non-binding advice. The processing must be adapted to the corresponding conditions. In special cases we recommend to contact our technical service. However, all data and information on the suitability and application of the delivered products do not exempt the processor from carrying out his own tests and trials. A claim for damages for omitted, incomplete or incorrect information is excluded. This applies in particular also if other products are used in the paint build-up system. Furthermore, we refer to our General Terms and Conditions (GTC) on our homepage.
