PREVAL®
Spray Gun. It's Powerful.

**FIVE reasons why the
Preval Spray Gun is perfect for
professionals in every field!**

1. The Preval Spray Gun is light, portable and self-powered. It is a handy, low-cost tool.
2. Each power unit sprays up to 16 ounces (depending on viscosity) of liquid including paints, acrylics, lacquer, enamels, primers, stains, varnishes, oil, solvents and more!
3. Replace power units in a snap. Containers are interchangeable too.
4. Clogs can be cleared in a flash. Just hold your finger over the red insert in the Preval spray button and give the button a quick push. It's that easy!
5. Clean-up in seconds. When the job is done, just put a small amount of solvent in the cap. Insert the dip tube and give it a few short bursts.

You are now ready for the next job!

**INDUSTRIAL
HOBBY & CRAFTS
HOME PROJECTS
AND MORE!**
